Products

1. Acoustic Boards (Wood Peel Board)
2. Velvett Foam
3. PE Sheets
4. Infill

1. Wood Peel Board

Wood Peel Boards are very effective for absorbing sound. Magnesite Bonding makes them rugged and tough to absorb any kind of sound.

These are also most economical and can be used exposed or covered with fabric. Used in Wall paneling and also for Ceiling. Usually recommended is 15mm thickness but they also come in 20mm and 25mm thickness. The Basic colour is white or pale white.

Size : 1200mm x 600mm x 15mm/20mm/25mm

NRC : Upto 0.90

Maintenance : Vacuum

Can be painted.

2. Velvet Foam

Extint Décor is the pioneer in Foam Technology for sound absorption in India. We have introduced Velvet Finish foam panels for the first time in India and is a completely developed and Made In India Product.

Beautifully designed 3d Squares gives a rich look when Applied on wall or ceiling and also performs its role of absorbing sound very well. Also being Fire Retardant, makes it the most unique and cost efficient product available in the market. It is available in different colours. Also can be used for bed backs application

Size : 600mm x 600mm x 35mm / 300mm x 300mm x 35mm

NRC : Upto 0.90

3. PE Sheets

Extint Décor Brand PE sheets are made from 100% Polyester fibres. These are widely used by architects, Interior Designers for Living rooms, Commercial establishments and also residential uses to reduce sound reverberations.

Available in various colours, light weight and easy to install, it can be used in different shapes and can be helpful in playing with the colours to make the room or wall vibrant. Needless to say, it never fails to perform. Being made of Polyester fibres, it can be called as water proof also.

Size : 1200mm x 2400mm x 10mm

NRC : Upto 0.90

Maintenance : Vacuum

4. Infill

Extint Décor Brand Infill is the most basic but at the same time most effective sound absorbing product and is widely used for different applications like Home Theatre, Ceiling, wall paneling, Partitions, etc

Extremely light weight, comes in a roll form. It is environment friendly and **does not itch** while application. The most important thing is that it is not dependant on any foreign particles for sound attenuation, it performs on it own. So the performance level on the first day will be the same even after a year.

Size : 1500mm x 30000mm x 50mm (Can be made available in short length)

NRC : Upto 0.70

Maintenance : Vacuum
